- **Asynchronous Video Interviewing**, interview without being present!

Fill job vacancies faster, with better candidates, ahead of the competition!

As a talented person becomes available in the market place, they often apply for several job vacancies simultaneously. The ASAP Recruit system will manage the recruiting process far more efficiently enabling you to find and employ the best applicants quickly, ahead of the competition.

Build a talent pool database of candidates, seamlessly!

Overtime your system will be populated with hundreds if not thousands of applicants, many of which could be suitable to be employed in future positions. Whilst each job vacancy is being filled, the ASAP Recruit system seamlessly develops and builds a recruiting pool of talent database for your ongoing use.

Centralise all your recruiting intelligence

All Recruiting Staff and Hiring Managers can view all the recruiting data from a central source. Access the system from within one office or across many offices, locally, nationally or globally, 24/7.

Easy online registration for applicants

- A unique website link address is provided for your website, enabling you to advertise your vacancies on your website easily and quickly. An optional 2nd website URL is supplied for Graduate vacancies.
- A 3rd optional website URL is available for confidential internal staff job advertising, such as on your Intranet.
- Applicant details from SEEK and other job boards can be imported automatically into your system.
- Applications are automatically processed into your system, against each job; with cards automatically created.
- Free Personality Testing fully integrated in your system, enabling applicants to be tested at registration or by invitation.

ASAP Mobile App. for an iPhone or an Android Phone

Access your system data efficiently on your mobile phone from anywhere via the integrated Mobile App. Review applicants against each job; view a resume, a photo, or phone, email or SMS an applicant quickly.

Asynchronous Video Interviewing

A new way of interviewing, where an applicant via an online portal answers interview questions by recording a video response. The whole process for the applicant is guided, and easy, initiated via an email invitation from within the system, allowing them to click on a unique link to upload a video response at their convenience. It also provides the ability for all of the interviewing team to view the video response at their convenience.

- It will mitigate any scheduling and logistics issues of interviewing
- It will allow for consistency across all interviews
- It will save staff time by reducing real time interviews
- Interviewers can view applicant video responses online in their own time

Customisable Applicant Job Questionnaire

Create a customisable job questionnaire for any job for applicants to complete at registration, gathering further information effortlessly about the applicant.

Reporting Functions

- Applicant Assessments Reports, combining all data into a single PDF
- Detailed Workflow management process for job reporting and control
- Personality Test Reports exported to PDF
- A detailed range of Psychometric tests and reports are available to access
- Application & Job Statistical information dynamically available
- A variety of other data is exportable in excel and PDF formats

Extensive training aids provided with, Page Help, Hints, Balloon Help, System Overview, FAQ's & Alerts

- An intuitive system provided with an extensive degree of help functions
- A complete reference library of Interview & Reference Check questions
- Additionally, the ASAP Recruit support team are always available to assist
- On screen and email alerts highlight new applications

A Fully customisable recruiting system

- Company branding is easily set up on all screens for both recruiting staff and applicants to view, add in your logo, and change screen colours to match your present website and corporate style.
- The system's library of Interview questions and Reference Check questions are fully customizable, offering several benefits, particularly helping to standardise these questions companywide for all staff to reference.
- Pre-Registration Applicant Filtering questions can be customised.
- Email templates, letter templates and SMS templates can be customised.
- Job Questionnaires can be setup for applicants to complete at registration and fully customised for different jobs.
- User access permissions can be configured, to control what each user of the system can view and manage.

Reduce IT costs

- No IT support is required to get up and running, a computer with access to the Internet is all that is required.
- All system maintenance, ongoing improvements, software and hardware requirements are taken care of.
- You can be up and running in a matter of minutes.
- You can have jobs advertised on your website instantly.
- You can receive applications and be filling your roles almost immediately.

Data Backup

ASAP Recruit has created the most innovative and easy to access data backup solution, seen in the "Cloud". By accessing the ASAP Recruit backup service, you can download a backup of your data every day, any day. Resumes, Educational documentation, Interview Notes, Reference Checks, Job Questionnaires, and additional evaluation information are compiled into a single backup document per applicant in an easy PDF usable format.

Access

The system can be viewed on any device, with recent versions of Edge, Internet Explorer, Google Chrome, Opera, Mozilla Firefox, Maxthon Cloud, using Microsoft XP or better, Apple Safari, or an iPad or Galaxy Tab; also via our App. for iPhone & Android mobiles.

No software licenses required, no ongoing software upgrades to worry about, it's all maintained for you!

The system is easily configured for one person in one office, or many people across many offices, locally or globally!

“Our software and service focus is all about making our customers more successful”

ASAP Recruit's most common customer comment is:

“It pays for itself many times over!”

Our Clients are some of the largest companies in, “Accounting, Banking, Construction, Engineering, Hospitality, IT, Legal, Local Government, Manufacturing, Medical, Mining, & Retail”
